TECHNICAL SKILLS

- Programming Languages **C++** | **Java** | Python | Dart
- App Development **Flutter** | **State Management** | Dialogflow | **APIs**
- Web Development HTML | CSS | Javascript
- Operating Systems Windows | Ubuntu Linux
- Designing Tools Figma | Canva
- Database **MySql** | **MongoDB** | Firebase
- Tools & IDEs **Visual Studio Code** | **Android Studio** | GitHub | IntelliJ Idea
- other **Body Language** | Leadership | Content Writer

WORK EXPERIENCE

Flutter Developer Internship | Havric

Dec 2024 - Jan 2025

- Optimized and refactored Flutter codebase, reducing redundancy and improving efficiency by 30%.
- Enhanced API integration, reducing response time for a smoother user experience.
- Debugged and fixed critical issues, reducing app crashes by 60% and ensuring seamless functionality.
- Implemented efficient state management (Provider), decreasing UI re-rendering issues

Promotion Team Member | GFG PCCOE&R

Jun 2024 - Present

- Contributed to a noticeable increase in membership and participation, strengthening community presence.
- Optimized outreach campaigns, improving audience reach and interaction.

PROJECTS

WorkConnect App | Flutter, Dart, Firebase, Provider State management, REST API's

[GitHub Repository](#)

- Developed a secure and dynamic employee management system for seamless collaboration.
- Created an intuitive and streamlined dashboard for effortless navigation and workflow.
- Role-based access control using Firebase Authentication for secure employee login and data access.
- Project and task management module for assigning, tracking, and updating project status in real-time.

HealthGuardian App | Flutter, Dart, Firebase, Dialogflow, encryption Algorithms

[GitHub Repository](#)

- Developed a secure patient data platform ensuring seamless data management and accessibility.
- Integrated an AI-powered chatbot using Dialogflow for intelligent health assistance and support.
- Optimized app performance and code efficiency using Dart for a smooth user experience.
- Utilized Firebase for authentication and real-time database to securely manage patient records.

Aadhar App| Flutter, Dart, SQLite

[GitHub Repository](#)

- Allows users to add, update, and delete Aadhar details seamlessly.
- Built with Flutter for a smooth and intuitive user experience.
- Enables users to retrieve Aadhar details without an internet connection.

EDUCATION

2022- present	BE(Computer) at Savitribai Phule Pune University	(SY CGPA : 9.41)
2022	Common Entrance test	(Percentile: 96.41)
2022	Class 12th	(Percentage: 85)
2020	Class 10th	(Percentage: 96)

CERTIFICATIONS AND ACHIEVEMENTS

- Secured 1st rank in SSC with 96% and 3rd rank in FY Engineering with a CGPA of 9.41.
- Udemy - Mastering Data Structures and Algorithms using C++.
- Oracle certification in Database Programming with SQL.
- NPTEL certification in Body Language : key to professional Success.
- Received a Copyright Certificate for literary work.
